FRIDAY MORNING, JUNE 15, 1860.

ROYAL IMBECILITY.

No better answer could be found the oblections of Europeans to the American system of electing rulers, than is contained in the following humiliating revelation concerning Grand Dake Charles, husband of the Grand Dutchess Stephania, of Baden, which is made by M. Edoard Simon, in the Revue Contemporaiare;

"At the Palace of Carlsruhe," says the article, "a whole series of apartments was found which the late Grand Duke had successively locked up, and which nobody had entered since. It had long been an old mania of his to lay by every thing he received, no matter what, and no matter from whom. No one was allowed to touch these things: the Grand Duke himself abstained from doing so, without ever taking the slightest notice of any application for restitution. As soon as a room was sufficiently full he would lock it up, taking out the key, and begin the same ceremony with another. When, after his death, these mysterious rooms were opened, they were found to be filled with an innumerable quantity of precious things, costumes, all kinds of trumpery, down to children's playthings, recollections of childhood, and which the Prince had never used. Here a quantity of rouleaux of silver, labeled 'Captain's pay for H. II. Prince Charles,' and a vast quantity of twenty-kreutzer pieces (copper) carefully wrapped up; there draws filled with rouleaux of gold; then snuff-boxes of the greatest value, rings, and other jewels, to the amount of more than a million of value. There treasures had lain dormant for many years; and yet, a short time before his death, the Grand Dake had been pinched for money, which ne could not get at a lower rate than 16 per cent. Then there were books, cards, petitions, papers of all kinds, which were brought to light with the treasures; an immense quartity of sealed letters, dispatches which had been looked for in vain, and then thought to be lost; precious documents, the want of which had prevented the settlement of important affairs and seriously endangered legitimate interests. Lastly, there were pieces of art, rich arms, offered for sale to the Prince a long time before, and which were found pellmell with embroidered court dresses, masquerading costumes and laced hats. In many cases it was impossible to find out the owners of some of these articles; and then, again, things which had been paid for by the civil list, and never had made their appearance, were found here."

The Richmond correspondent of the Petersburg Express says :- John Hill, one of our most aged citizens, and probably the oldest watch-maker in Virginia, died quite suddenly, on Friday morning last, at his little farm, in the vicinity of Buchanan's Spring. For several years past he has pursued the calling of what might be termed a private pawnbroker. In his day, he has relieved hundreds of his fellow men, who under adverse circumstances, have been compelled to solicit assistance. He was extremely cautions and circumspect in his transactions and for all sums loaned, generally received ample security in some shape or other-such as watches, jewelry or costly clothing .-Many a strapped sporting-man has been enabled to replenish his treasury through John Hill. He was a just man in his dealings, but as exacting as Shylock, requiring in all cases every iota agreed upon. He was of a very quiet, retiring nature, and not without his eccentricities. As an evidence, he had told many friends that he intended giving a grand dinner on the Fourth of July next, in honor of all for whom he entertained a high regard, and in their presence would sign his will. When taken ill on Friday he called for a pen and ink, for the purpose of affixing his signature to the document which he had intended signing on the Fourth of July, but it was too late, for he had not strength to write his name, and died immediately, without a struggle. It is said that he has in his possession between 300 or 400 valuable watches, upon which he has advanced money, and an estate valued at \$90,000. It all goes to an only son and a beloved grand-daughter.

THE MIDNIGHT MEETING MOVEMENT IN London.-The great success which has attended this movement induced the promoters to hold a thanksgiving meeting recently at the Free Masons' Tavern, Great Queen street. Mr. Theophilus Smith read a very interesting report, which was a history of the movement from 1850 down to the present time. The success of the meetings recently held was said to have been most remarkable. and the committee were determined to continue them with great vigor. Seven meetings had been called, the Gospel had been preached to 1.700 women, and 7,500 scriptural cards and books had been circulated amongst them; the offer of escape had been made to all, it had been accepted by 107; of these 100 are in the homes, through the ageney of which they would, it was hoped, be restored to society. In addition to these, five had been restored to their friends, one restored to her husband, two placed in situation, and one had been married.

ST. NICHOLAS HOTEL,

BROADWAY, NEW YORK. * THEN completed, six years ago, the ST. NICHOLAS was universally pronounced he most magnificent, convenient, and thoroughly tinent. What it was then, it remains to daywithout a rival in size, in sumptuousness, and in the general elements of comfort and enjoyment. including 100 complete suites of apartments for families. Six hundred persons can be comfortably seated at the tables of its three public dining rooms, and nothing that modern art has devised for the convenience and social gratification of the travelling public, has been omitted in its plan, or is neglected in its practical details. The early reputation of the house at home and abroad, deried from its magnitude, its superb appointments, and its home-like comforts and luxuries, has been enhanced every year by the unwearied exertions of the proprietors, TREADWELL, WHITCOME & CO.

FROM THE

Chincha & Sombrero Islands. WE WARRANT IT IN EVERY RESPECT.

THE SOMBRERO GUANO, Before being mixed, is rendered immediately soluble, by the addition of Sulphuric acid. This treatment is universally recommended by the most eminent Agricultural Chemists. Without it, the action of the two Guanos when mixed is not simultaneous, and consequently comparatively inefficient.

This is the ONLY mixture of the Ammoniated and Phosphatic GUANOS we know of, yet offered to the Agricultural community, in a REALLY SOLUBLE form.

Price \$50 per Ton of 2,000 lbs. Our reports from those who applied the above FERTILIZER to their crops last fall, are highly satisfactory-so much so, indeed, as to convince us that our Soluble Phosphated Perucian Guano will ere long be altogether used in this section, as a substitute for the Peruvian Guano, which, mithout the addition of Phosphates, tends rather to exhaust than permanently improve the soil. ap 19-dtf

KIRBY'S

AMERICAN HARVESTER. THE SUPERIORITY OF KIRBY'S AMER-I ICAN HARVESTER, over all others, will become more obvious by looking at its several esq., died seized. This property lies about seven superior points in detail, and then considering miles from Alexandria and five from Washington that all these separate excellencies are combined in one MACHINE, in the most simple and effective manner. In some of these excellencies it is entirely unequalled, and in none of them is it surpassed. While other MACHINES may equal it in some of its desirable qualities, we can safely say there is not another MACHINE in the world which COMBINES ALL THE EXCELLEN-CIES that are found combined in KIRBY'S AMERICAN HARVESTER.

We would call the attention of Farmers to the following facts: 1. That-This is the most perfect Combined Mower and Reaper in use; better than any single mower as a mower, and better than any single

reaper as a reaper. 2. That-It is the strongest and the lightest; being made entirely of Iron, except pole, seat and platform. The finger-bar is of wrought angle iron, of great strength and lightness. 3 That-It has a Revolving Track-Clearer, which is the only track-clearer that will thoroughly separate the cut from the uncut grass, and with-

out leaving the cut grass in banches. 4 That-IT REQUIRES ONE-THIRD LESS DRAFT THAN ANY OTHER MACHINE.

5 That-No pressure is made upon the hor-SES' NECKS, AND NO SIDE PRAFT. 6. That-Its ability to work on rough ground is not equalled by any machine yet produced .-The finger-bar working up and down, independent of the driving wheel, enables the machine to go through deep fulrows and ditches, among stones and bogs, over knolls and gopher hills, where no

with but little exertion. 9 That-While the machine is in motion the driver can, by means of a lever, throw the cutters out and into gear, and by another lever he can raise and lower the finger-bar to pass obstructions, or move from field to field.

10. That-It is easily managed, marvelously simple, well built, compact, not liable to get out of order, made of the best materials, Babbet, metal boxes, and is furnished with double trees, neck voke and extras complete.

We would request all those who are in want of a REAPER and MOWER, to send for a Circular descriptive of the MACHINE, &c., before making other arrangements.
